Local GSI Plant Becomes 'The Commonwealth' Again

A divisional status for the local plant of General Steel Industries, Inc. with return to the time-honored favorite name of "Commonwealth Division," was announced this week by Charles P. Whitehead, GSI president, who said Gordon L. McMillin will return here next Monday to become general manager.

The change in name completes the divisional organization. GSI designed to simplify administration procedures. It also perpetuates a name associated with the plant since 1904 when it was founded as Commonwealth Steel Co. It was acquired by General Steel in 1929.

McMillin, president of Canadian Steel Foundries Ltd., Montreal, started with the local plant in 1942 as a metallurgist. In 1951, he became works manager, a post he held until 1954 when he joined the company's Canadian division.

General Steel is a major supplier of specially designed castings for railroad industry and defense; rapid transit rail-

road cars; and steel and iron rolls for the steel industry. In addition to the Commonwealth Division, GSI operates the National Steel Division, Avonmore, Pa.; the Edgemoor Division, Edgemoor, Pa.

VHS Seniors Present Class Play Tomorrow

"Aunt Samantha Rules the Roost," a comedy farce, will be presented by the Venice high school senior class at 8 p.m. tomorrow in the school gymnasium with Jack Fields cast in the lead role.

The play, written by Charles George, will be presented for one performance only. Director will be Robert L. Hendrickson, English and languages teacher and class sponsor.

Other cast members are Jane Dudgeon as Serena Simkins, Phyllis Hawkins as Sophie Simkins, Barbara Koelker as Polly Paine, Cathy Price as Annie Ambrose, Dolores May as Blanche Bowers, Nay Shambro as Lucien Littlefield, Don Devany as Elmer Boswell, Frank Bartlett as Frank Fairfield, Jerry Baggett as Lawrence Loveless and John Gonterman as Buddy Baskins.

Proceeds from the play will be used to finance a senior class trip at the end of the academic year.

Former Member Speaks At GC Kiwanis Meeting

A former member of the Granite City Kiwanis club was the guest speaker Monday night at the regular dinner meeting held at the Elks club.

John Graham, who now resides in Gallup, N. M., where he is a salesman, spoke about his new home town. He was given a certificate of appreciation by president Marvin Barnes.

On Tuesday, five members and three wives attended the divisional sports fellowship dinner at the Edwardsville Kiwanis club. Approximately 176 persons from the division's 10 clubs were present.

vacancies on the ballot as a candidate for that position, and received 12,544 votes. The multiple vote for representative gave Smith a larger number of votes than the total number of ballots cast.

James W. McRoberts of East St. Louis received 4444 votes as the single candidate for a state central committeeman. Also unopposed were Ray W. Herbst of Collinsville and Walter J. Emde and Art Habelstock of Granite City. Candidates for the three positions as 53rd district representative committee candidates. Their vote totals were 2061, 3483 and 3113, respectively.

While the Republican write-in vote had not been completely tallied, it appeared that a write-in state proposed by party leaders just prior to the election had been successful. A possible exception was the county superintendent of schools, on which further information is given elsewhere in this issue.

Oilers Senior Division Triangular Winners; GC Tops In Junior Field

Wood River's Oilers captured first places in eight of 13 track and field events on a rain-soaked field in Wood River Tuesday afternoon to take the No. 1 spot in the senior division of a meet with Granite City and Jerseyville.

The Oilers finished with 69 points, Jerseyville had 37 and Granite City 28. Competition in the hot jump was canceled because of rain which fell steadily throughout the meet.

In the junior division, Granite City's promising batch of youngsters remained undefeated this spring as they amassed 67 points while Wood River scored 27 and Jerseyville 19. High jump, pole vault and broad jump competition was canceled in the junior division due to rain.

The final doubles match on the program was completed in near darkness, concluding what probably was the best afternoon for tennis—weather-wise of the spring.

Trotts 2-Hits Bethalto In 7-2 MHS Win

Good relief pitching by Dan Trotts and timely hitting by Tap Fisk helped Madison high school secure its first baseball victory of the spring yesterday afternoon in Bethalto.

The Trojans bunched all their scoring into two innings to hand the Eagles a 7-2 setback and even their Midwestern conference record at 1-1.

Trotts, relieving starter Mike Dillon in the third, fanned 10 in the final five innings as he mired an occasional fast ball with a good curve. He allowed two hits and walked three in the relief stint.

Dillon was not scored upon and struck out three in the first two frames, but had control trouble as he gave up five free passes.

Madison threatened in the first two innings and then broke into the scoring column in the third with four hits, with some daring baserunning, produced five runs.

Fisk, who had a pair of doubles and a single, scored in the third when he stole home. Tom Lubak, at second when the steal occurred, also scored when the ball eluded the catcher.

Madison added two insurance runs on two hits in the fifth. The Trojans, now 1-2 overall, gathered eight hits while Bethalto had two.

Earl McClanahan's team will try for its second conference win at 4 p.m. today in Cahokia.

MHS Tennis Team Trips Collinsville

Madison high school's tennis team, which hasn't discovered yet that schools participating in the sport for the first time are not supposed to win from other schools which have had tennis as a part of their intrascholastic athletic program for long years, whacked visiting Collinsville in Madison yesterday, 4-1, for the second straight team victory under Coach Bob Barnhart.

Sophomore John Summers was the only MHS player to be defeated. He lost a No. 1 singles decision to Kalamazoo senior Jack Finney. In other singles matches Don Broyles and John Okal rolled past their opposition in straight sets.

Madison's No. 2 doubles combination, Mike Moss and Jim Harrison, also won in straight sets. The Trojans continue their first season next Monday at Mascoutah, and Barnhart has added another home date with Collinsville, on May 14. The match results:

No. 1 singles—Jack Finney (C) defeated John Summers, 7-6, 6-4; No. 2 singles—Don Broyles (M) defeated Rich Niedringhaus, 6-1, 6-0; No. 3 singles—John Okal (M) defeated Mike Finney, 6-2, 6-4.

No. 1 doubles—Ralph Rideout and Larry Lux (M) defeated Dave Sarge and John Beckman, 6-4, 5-7, 6-1; No. 2 doubles—Mike Moss and Jim Harrison (M) defeated Eric Morris and Jerry Meadows, 6-1, 6-2.

GC Kindergarten Registration Set

Tomorrow is the first of four dates established by the Granite City school district on which parents may register children for kindergarten classes next fall.

Children must be five years of age on or before Dec. 31, 1962, and birth certificates must be presented at the time of registration. Health examinations are required before the child begins the fall term.

Present grade school boundaries will be followed on all four registration dates, and hours at each are 9 a.m. to 3 p.m. Registration will take place as follows: Friday, April 13—Namood, Webster, Lake and Niedringhaus schools; Monday, April 16—Washington, McKinley, Mitchell and Wilcox schools; Tuesday, April 17—Marshall, Logan and Stallings schools; and Wednesday, April 18—Emerson, Froehardt and Maryville schools.

Mrs. Beulah Miller and Mrs. Delps presented the program, slides of the homes and flowers of Alaska and Holland. Tulip beds of Holland were shown in color. That the flowers of Alaska are the same as grown here was a source of amazement to the members.

Several of the slides showed sweet-peas growing to roof eaves and they were heavily laden with blossoms. Also shown were dahlias, nasturtiums and petunias.

Others present were Miss June Markham, Mrs. Ida Hanfelder, Mrs. Doris Smith, Mrs. Elizabeth LaVelle, Mrs. Caroline Moser, Mrs. Yvonne Guth, Mrs. Agnes Miller, Mrs. Midge Sierky and a new member, Mrs. Evelyn Leu, and a guest, Mrs. Josephine Fitzgerald of St. Louis.

And if you'll pay only a penny more per night (the price of a stick of gum) you'll assure yourself the best rest a body ever had, a sound refreshing sleep on Beautyrest. Why settle for the questionable comfort, the questionable economy of a so-called "bargain" mattress when buoyant, body-supporting Beautyrest can fit so well into any budget. And Beautyrest is truly economical... lasts 3 times longer than ordinary mattresses, a fact proven by durability tests conducted by the United States Testing Company. So to sleep well on Beautyrest.

Matching Boxspring Also \$79.50

TERMS AS LOW AS \$2.00 PER WEEK

Ordinary mattresses have 200 to 300 wired-together springs. Push one down... and the other nearby springs sag down too. They can't support body hollows... give a "hammock" kind of sleep.

Beautyrest has over 800 individual springs... not tied together with each in its separate cloth pockets. Each spring works independently to push up under the back... give firm, buoyant support to all parts of the body.

"Our lawyer sat right there and said, 'Pay it'"

"Yes, that's what he said. He sat there advising us to pay for repairs to our damaged property, now that he had the signed statements from witnesses and all the other documented evidence he needed to bring legal action. It was such a relief."

"And when Bobby was hit by a car, it was our lawyer, sitting in that chair, who explained our legal position and how he would handle the details with the doctors, the hospital and the insurance company, etc. And that's where he sat when he worked out the details of Henry's will."

"I can hardly think of a really important phase in our lives that hasn't found him sitting in that same chair, giving us the same sound advice and counsel. And he certainly had a very important part in our buying this house! Why, in all those legal matters that came up and all those papers we had to sign, he made certain every

time that our interests were fully protected. Yes, you just might say that chair has more than paid for itself, just from the use he's made of it."

Chicago Title and Trust Company protects it...

"Several years ago, we were notified that the city claimed the right under a recorded easement to put a new street through part of our property. Once again, our lawyer sat in that same chair and reminded us of something we'd all most forgotten—our title insurance policy from Chicago Title and Trust Company. He promptly talked to the title company and together they handled it to our complete satisfaction. I guess you might say the title company deserves part of that chair, too."

Alley, Yard Clean Up Drive Starts In GC

A general cleanup of trash, ashes and other debris from alleys and backyards is being started by the city, and City Inspector Jack Fricker said today he will begin to issue nuisance warrants next week for Granite Cityans who fail to respond.

Fricker said he has toured alleys throughout the city and has found piles of debris and scattered trash in the alleys and backyards in virtually every section.

"We do this every spring and again will issue the warrants against those who don't comply. It's been a long, hard winter, but the clean up is badly needed," Fricker commented.

ASC Issue Warning To Farmers With Contracts

Farmers with whole farm conservation reserve contracts are reminded that they are prohibited from producing grain or hay crops in 1962, Edwin C. Rethmeier, chairman of the Madison county ASC committee, announced today.

Cooperators with part farm contracts cannot exceed the acreage of allotment crops on their farms, and must observe the permitted acres of soil-bank base crops. Violation of these limitations will result in the loss of the annual payment, and could result in the assessment of a penalty equal to 50% of the annual payment.

"Generally speaking," Rethmeier said, "farmers are well aware of crop production limitations, but the county ASC committee is anxious that no producer lose any of this year's annual payment. In addition to the limitation on crop production, pasturing reserve areas is prohibited and noxious weeds must be controlled. Unless these requirements are observed, the purpose of the program will be defeated, and cooperators will be penalized."

Farmers are permitted to pasture land not included in conservation reserve contracts. Home gardens can continue to be used to produce crops for home use.

Miss Wood To Take Part In SIU Home Ec Day

Samples of careers open to home economists will be illustrated by School of Home Economics students at the annual Home Economics High School Day to be held April 14 at Southern Illinois University, Carbondale.

In a skit "emceed" by Dr. Anna Carol Fultz, students will give personal reasons for choosing their respective fields of specialization, and to add color and spice, foreign students in native costumes will reveal why they chose SIU and home economics.

Among the students participating will be Barry Jo Wood of Granite City, clothing and textiles merchandising.

Last year almost 1800 high school students attended. The School of Agriculture also will hold a career day April 14.

Hits Parked Car

David D. Taylor, 49, of 148 Contra Avenue, who was involved in a traffic accident, was arrested Monday afternoon for having inadequate brakes. He posted his license as bond until Saturday.

Taylor was driving north on Nameoki road when his brakes failed. He turned onto Amos Avenue to avoid traffic dead ahead and collided with a parked car owned by Allan S. Weiss, 1737 Primrose Avenue. Minor damage resulted, police said.

86 Accidents Occur In GC During March

A quarterly traffic accident report for Granite City shows a drop in the number of mishaps and resultant injuries. Police Records, Clerk Raymond Ridge said today.

With 86 traffic accident and 28 injuries in March, the totals for the year are 267 accidents, 13 injuries and no fatalities, compared to 281, 104 and none for the first quarter of 1961.

The March injuries included two bicyclists, six pedestrians and 20 drivers or passengers in motor vehicles.

Police had predicted 80 traffic mishaps would occur during March.

Finance Sessions Begin For Sewer Project

Conferences for preparation of a bond ordinance to finance the city's master sewer and drainage program are in full swing with virtual daily sessions scheduled to complete the task as quickly as possible.

Under study is the financing procedure outlined in the Dec. 13 report by the Citizens' Master Sewer & Drainage program which recommends a \$9,925,000 revenue bond issue to build a sewage treatment plant, interceptors sewers and additional drainage lines needed for separate sanitary and storm water sewer systems in the older section of Granite City.

Participants In Meetings
Taking part in the meetings are the city's fiscal agent, Rowland H. Murray of Nongard, Shovers & Murray, Inc., a Chicago firm; members of the Citizens' committee headed by G. W. Hoelscher; members of the city council's Special Sewer committee headed by Alderman Frank Vesce; representatives of the bond counsel firm, Charles & Trauermicht, St. Louis; City Attorney William Beatty of the local law firm of Moran, Beatty & In-

Hiscott, that is to draw up the bond ordinance, representatives of the engineering firm of Shepley, Morgan & Schwaab and city officials.

In addition to securing details on the amounts of financial aid which might be available from the East Side Levee & Sanitary District for trunk lines and from the federal government for construction of the sewage treatment plant, the fiscal agent and the local group also are restudying the local sources of income as outlined in the Citizens' report.

Users Of System
In setting up the bond retirement schedule, the group has the following data supplied by the Citizens' committee pertaining to users of the system: Residential units, 11,475; filling stations, 50; miscellaneous businesses, 794; churches, 53; industries, 11; schools, 11; professional offices, 76; hotels, 2; and trailer courts, 4.

All figures on monthly rate charges are subject to revision. It has been pointed out at the last several council sessions and at a meeting last week of the local law firm of Moran, Beatty & In-

Council Chairmen Ok Plan For 19th Street
A brief meeting, attended by only five council committee chairmen, was conducted Monday evening by Mayor Davis, who said the group agreed—subject to council approval—to accept the offer by downtown merchants to advance funds, interest free for a year, to remove abandoned trolley tracks from 19th street.

Mayor Davis said the council hopes to be able to repay the loan within a year's time. The project, to cost \$13,300, is to be carried out by the low bidder of several months ago, G. H. Sternberg & Co., and is to include additional storm water drainage lines at 19th and State streets. The track removal will be from State street west to Cleveland Blvd.

Attending the dinner meeting at Cline's restaurant were Mayor Davis, Alvin Barnes Jr. of the merchants' group, council committee chairmen Frank Vesce, Steve Baerach, Estill Von Schmitt, Casner Skubish and Ford Johnson and City Attorney William Beatty.

Employee Relations Are Key To Success

Improvement Association, attended by a number of city officials.

Under the Citizens' committee's report, the rates suggested were \$3.40 a month for the average household, churches and professional offices; \$6.80 for service stations and schools using less than 50,000 cubic feet of water per quarter; \$13.20 for hotels and \$17 for trailer courts; while industries would pay \$12.46 a month if tributary to the sewage treatment plant and \$33.33 for discharging unpolluted water into a storm sewer. The rate for over 50,000 cubic feet a month was suggested of 11 1/2 cents per 100 cubic feet.

In the Nameoki area, where householders are paying \$2.50 monthly rental fees for sanitary sewer construction under a revenue bond issue, the citizen group recommends cutting that fee to \$2.28 with a \$1.12 charge for pollution abatement and interceptor sewers to put the total monthly charge at \$3.40, the same as other households in the city.

Several local industries, it was learned, are planning to build sewage treatment plants to handle pollution abatement.

Bank To Offer Cash For Return of Cards
One of several special events scheduled for Granite City Trust & Savings Bank's new drive-in and walk-up service which opens Friday will be a series of lighter-than-air balloon launchings.

Five launchings will take place. Each will consist of a different number of balloons tied together for variations in lift. With each cluster there will be card offering \$10 reward to the finder.

The drive-in window is off Edison avenue and the walk-up window is on Delmar avenue. The bank has designated Friday as "Friendly Day." Among the attractions that day will be the coronations for the women, buttonnieres for the men, balloons for the children and free \$500 certificate bill.

The bank is interested in seeing just how far the gas-filled balloons will travel. The helium contest will be sufficient to last for about a day.

"With sufficient air currents, the balloons could travel a considerable distance," said Gordon Ironore, public relations officer. "We've had balloon launchings in previous celebrations but we've never had any cards returned."

We are hoping the \$10 reward will be an added inducement for finders to return the cards."

Feed Grain Sign-Up Extended To April 16

The sign-up period for the feed grain program has been extended through Saturday, April 16. Edwin C. Rethmeier, chairman of the Madison County ASC and county agent, announced today.

Payments are made under the feed grain program for reducing the acreage of corn and placing such acres to a conservation use. In addition, producers that sign up and comply are eligible for price support.

Rethmeier urged all Madison county farmers that have not filled intention to participate to be sure to do so by April 16. The extension also provides an opportunity for those who have signed up to increase the acreage they originally intended to divert.

This will be helpful where farmers have changed their plans since they signed up. The Madison county ASC office, 118 Hillsboro avenue, Edwardsville, will remain open on Saturday, April 14, 8 a.m. to 5 p.m. to accept requests.

April 30 Is Final Date For Wool Producers

Wool producers are reminded that April 30 is the final date to present evidence of wool and unborn lambs for sales made through the period April 1, 1961, and March 31, 1962, inclusive, according to Edwin C. Rethmeier, chairman of the local ASC committee.

Under present regulations, producers may make application and receive a wool subsidy payment for sales of shorn wool and unborn lambs, provided proper evidence of such sales are on file in the county office prior to the April 30 date, accompanied by a completed and signed application for subsidy payment.

Rethmeier said that the subsidy payment will be made by CCC drafts through the local ASCS office as soon as the national average of prices received by producers may be compiled, usually the first part of July.

A Message of Cash Importance to Our Savers

Dear Saver:

The earnings you receive on your savings account are in danger of being reduced as a result of a tax bill now in Congress.

This bill, H.R.10650, already has passed the House of Representatives. As approved by the House the bill provides:

1. For a substantial increase in the taxes paid by savings and loan associations. This is the same as taxing you because any increase in taxes paid by savings and loan associations reduces the earnings from which associations pay dividends to savers.
2. For a 20% withholding tax on all interest and dividends. Under this proposal 20% would be skimmed off the earnings from all types of investments: United States savings bonds, corporate stocks and bonds, insurance, mutual funds, and savings in banks, savings and loan associations and credit unions.

Further Facts About Savings and Loan Taxation

While the bill as passed by the House of Representatives provides for a substantial increase in the taxes paid by savings and loan associations, competitive interests are asking that the Senate levy even greater taxes on savings and loan associations than the increase voted by the House. If this proposal should prevail in the Senate, it would greatly increase our expenses and make it difficult, if not impossible, for us to maintain the present rate of earnings on your savings.

Additional Facts About Withholding

Our institution and all others that pay interest or dividends would be required to deduct 20% and send it to the government. You would be required to claim this 20% as tax paid when you file your annual personal income tax return.

Savers who for one reason or another would not have to pay federal income tax in any one year would have to file an exemption certificate with us and with every organization that pays them interest or dividends. This certificate would have to be filed each year, else withholding would be necessary.

Some people do not pay their full taxes on interest and dividends. This is the reason for the 20% withholding tax proposal on the interest and dividends of everyone. The government is in effect trying to weed the garden with a bulldozer when it requires withholding on the interest and dividends of everyone in order to make sure that it collects taxes owed by the few who do not report all of their interest and dividends on their personal income tax returns.

If you agree that taxes on savings and loan associations—which you, the saver, would end up paying—should not be increased and if you agree that this proposed withholding tax against your savings and investments is unnecessary and unfair, then you can do something about it by writing to your two United States senators.

Now is the time to protest, and the protest must be made to those who are writing the tax law.

Your senators may be addressed as follows:

The Honorable
United States Senate
Senate Office Building
Washington 25, D. C.

Salutation: Dear Senator

Sincerely,

Your Savings and Loan Associations

Our Position on Savings And Loan Taxation

1. Savings and Loans have paid taxes for many years, just like other businesses. To encourage building up bad debt reserves Savings and Loans have been able to accumulate up to a maximum of 12% of total savings accounts.

2. Nobody expects a "free ride" on taxes. What we do want is a tax formula that will allow us to build up bad debt reserves adequate to absorb losses rather than some hasty, thrown-together formula that only penalizes us because we pay higher earnings to our customers.

3. Savings and Loans make real estate loans that run 20 years or longer, so losses won't show up each year, but tend to "bunch up" when there is a slump or recession. It's necessary to build adequate reserves to take care of such possibilities.

4. Savings and Loans are a low-margin business. By the time we collect our interest on long-term mortgage loans, pay our savers 4.5% dividends, we are left with approximately 1.5% to pay the expenses of our associations and provide for reserves. Any increase in taxation is inevitably going to wind up coming out of the customer's pocket, either in the form of higher rates on loans or lower earnings on savings.

5. Whatever Congress decides, your Savings and Loan Associations will continue to put "safety" first and keep adding to the reserves that protect your savings.

WRITE TO YOUR SENATORS NOW!

PAUL H. DOUGLAS EVERETT M. DIRKSEN

A MESSAGE OF IMPORTANCE TO OUR LOAN CUSTOMERS:

Congress currently is considering legislation which if enacted would adversely affect you and the other home owners and home buyers of the nation.

This legislation, which is supported primarily by competitive interests, calls for a drastic revision of the savings and loan income tax law. Such a revision would severely restrict our ability to attract savings and would result in a significant reduction in the amount of funds available for home mortgage lending.

As you know, when money for lending on homes is not readily available, interest rates on home loans will rise. This is simply an application of the economic maxim that if demand exceeds supply, the price will rise.

Therefore, should you as a home owner desire to sell your home or buy another, this increase in interest rates could have a material effect on the price of a house. A buyer for your present home would be inclined to pay less for it because he would be unable to obtain a reasonable mortgage with monthly payments tailored to his income. By the same token, if you were to purchase another home, you would find your interest costs on a new mortgage to be higher than should be necessary.

This legislation is now pending before the United States Senate. We urge that you write to Senators EVERETT M. DIRKSEN and PAUL H. DOUGLAS telling them that you oppose this legislation which will drastically hurt our country's housing program, will lead to higher interest rates on home mortgages, and which will adversely affect your ability to buy or sell a home.

You can address your senators as follows:

The Honorable
Senate Office Building
Washington 25, D. C.

TIME IS SHORT, SO PLEASE ACT PROMPTLY.

Sincerely,

Your Savings and Loan Associations

Here Saturday Evening Soprano Beverly Bower Final Concert Attraction

Beverly Bower, soprano whose performance here last week was postponed due to the serious illness of her son, will appear in concert at the Granite City high school auditorium at 8 p.m. Saturday.

Miss Bower's performance will be under the auspices of the Tri-City Community Concert Association, and is the last of four concerts on the group's 1961-62 schedule.

Officials of the concert association are inviting all new members of the group who joined during the recent 1962-63 membership drive, to attend the final concert of the current season. They will be admitted by presenting their membership receipt at the door.

On the concert stage, Miss Bower has been soloist with symphony orchestras from Toronto to Austin, Tex., with 14 appearances with the Cleveland orchestra in six years.

In private life the wife of John Kaufman of Tazewell, N. J., and the mother of a young son, Mark Douglas, Miss Bower made her professional debut with the New York City Opera Company in the spring of 1956 as Violetta in "La Traviata," and has appeared in that and various other operatic roles each season since.

She also has been a featured oratorio soloist with leading choral societies, including the Bach Festival Society and the Mendelssohn Club of Philadelphia.

A protégée of Metropolitan Opera star Helen Jepson, Miss Bower has been training her naturally beautiful voice almost since she was old enough to talk. After early private studies in Olean, N. Y., where she was born, she continued with outstanding teachers in Philadelphia, where her family moved when she was 16.

Her singing awards include finalist in the "Voice of Tomorrow" contest and winner of the Pennsylvania Federation of Music Clubs auditions.

SOPRANO BEVERLY BOWER, whose appearance here Saturday will mark the last musical program to be presented this season by the Tri-City Community Concert Association.

Two days remain in which persons holding over-due books from the public library in Granite City may return them without paying a fine.

The over-due fine has been waived this week in observance of National Library Week, which began Monday and continues through Saturday.

Special displays have been featured throughout the week at the Granite City library as well as those in Madison and Venice. Also in conjunction with the observance, the Granite City library is serving free coffee and giving favors to children visiting the library.

Family Finds Phantom Diner Took \$500 Coat

When Mr. and Mrs. William Hiller arrived home one night two months ago and found that someone had eaten in their kitchen, they thought a joke had been played on them. They did not notice anything missing at the time.

Today, the joke is anything but funny because the Hillers discovered Monday evening that a \$500 natural beige muskrat jacket is missing from their home at 2314 Grand avenue.

Since there was no evidence of forcible entry, it is assumed that the phantom diner helped himself to more than food two months ago.

Free Chest X-Rays To Be Started In Area May 17

The Madison County Tuberculosis Association today announced that a free chest x-ray survey will be conducted May 17 through June 9 at six locations in the Quad-City area.

The association engages registered technicians and the latest equipment. The unit has modern filters designed to direct x-ray beams to the chest only, thus avoiding unnecessary exposure of other parts of the body. The special lens takes pictures 56% faster than standard photo-fluorographic units, thus reducing exposure to an absolute minimum.

Anyone over 16 years of age may take advantage of the survey. Tuberculosis and many chest disorders are discovered by chest x-ray. Reports are mailed directly to any person having negative readings.

The annual purchase of Christmas seals pays for films and their interpretation.

Local Area Schedule

The Quad-City area schedule is as follows:

Thursday, May 17, from 4:30 to 6 p.m. at Ira King store, Weaver street, Madison.

Friday, May 25, from noon to 4 p.m. and from 4:30 to 9 p.m. at Bellemore Village shopping center, Granite City.

Saturday, May 26, from 9 a.m. to noon, at Venice city hall.

Saturday, May 26, from 2 to 5 p.m. at Bellemore shopping center.

Saturday, June 2, from 9:30 a.m. to 1 p.m. and from 2 to 6 p.m. at Madison Dairy Master, 516 Madison avenue, Madison.

Saturday, June 9, from 9 a.m. to noon and 1 to 5 p.m. at the city hall in Granite City.

Taxpayer Responsible For Contents of Return

The Taxpayer whose signature appears on his federal income tax return is responsible for the facts and figures in it, even if it is prepared with help from the Internal Revenue Service, according to District Director Jay G. Phillips.

Individual income tax returns for 1961 must be filed no later than Monday to avoid penalties for late filing. The normal deadline is April 15, but was extended to April 16 this year because it falls on Sunday.

Phillips reminded household workers who earned \$500 or more they must file an income tax return. Domestic workers may not fully be aware of this requirement, he said.

Taxpayers required to file a declaration of estimated income tax for 1962 also must file by the April 16 deadline, Phillips said. Such persons are required to file Form 1040-ES, and pay at least 25% of the tax on such income at this time.

State Survey Shows 'Good Fishing' In Area

A creel census conducted by the Illinois Department of Conservation in 1961 on Illinois River backwater lakes near Grafton showed that the area produced very good fishing.

The catch rate was over nine-tenths of a fish per hour of fishing, which substantially tops the national average of a half fish per hour. Each fisherman averaged six fish per trip, another indication of good fishing. In all, 3,000 anglers fished 11,500 hours and caught 11,000 fish weighing 3800 pounds.

Over 7000 bluegill averaging almost three-tenths of a pound were taken, making it the most caught species. Another panfish, the crappie, ran a respectable, though not close, second. The rest of the total catch was made up primarily of warmouth, largemouth bass, freshwater sheepshead (drum) and bullheads.

Some of the most popular lakes in the area were Fowler, Long, Royal, Swan and Stump Lakes. Accessibility to the good fishing spots in these lakes is almost solely by water as shown by the fact that 95% of the anglers fished by boat.

Gene Decherich of Grafton was the creel clerk.

Pvt. Foster Completes Six-Week Army Course

Army Pvt. Robert J. Foster, whose wife, Elyana, lives at Berkeley, Calif., has completed the six-week supply and parts specialist course at The Transportation School, Fort Eustis, Va.

The 21-year-old soldier, son of Mrs. Julia Buckels, Madison is a 1960 graduate of Lincoln of Venice high school.

Foster was trained to maintain stock records and to receive, identify, issue and store Transportation Corps supplies, equipment and replacement parts.

He entered the Army last September and received basic training at Fort Ord, Calif.

Madison High School Band To Tour Wisconsin City

The 65-member Madison high school band is departing today by chartered bus for Kenosha, Wis., for an educational tour. Highlight of the trip will be a visit to a woodwind instrument manufacturing plant there, the director, William Ledbetter, said.

The trip will include visits to other points of interest in the Kenosha area and a tour of the Museum of Science and Industry in Chicago.

Several band parents will accompany the group on the two-day tour, which will include classes to act as chaperons. The band will return Saturday night.

Army Promotes Barnfield To Specialist Four

Clyde Barnfield, whose wife, Charlene, lives at 1857 Edwardsville road, Madison, recently was promoted to specialist four at Fort Leavenworth, Kan., where he is assigned to the U.S. Army Garrison.

Specialist Barnfield is a member of the garrison's Headquarters Company. He entered the Army in October 1960 and completed basic combat training at Fort Leonard Wood, Mo.

The 24-year-old soldier, son of Earl E. Barnfield, Puxico, Mo., is a 1955 graduate of Puxico high school.

Tennis was introduced into the United States by Miss May E. Outerbridge, who spent the winter of 1874 in Bermuda and saw the game played by British officials there.

There is evidence that handball, often considered one of the national games of Ireland, originated there about 1000 years ago.

Offers Tips On Safety For Kite Enthusiasts

Though Bob Franklin's kite-flying experiment in a lightning storm advanced man's knowledge of electricity, it set a bad example for youngsters of later generations.

Steele Gaston, electric distribution superintendent of Illinois Power Co., said, "Children should never fly kites or model airplanes in the rain. Lightning airplanes seeks the path of least resistance to the ground and the kite string with a youngster on one end can sometimes be that path."

He offered the following safety tips:

"Make sure the kite and string contain no tinsel, wire or anything with metal in it."

"Don't fly a kite near power lines. If a kite snaps on a wire, pull the electric company. Don't pull on the string or climb the pole."

"Don't fly kites over TV or radio aerials."

"Fly kites in open areas, away from streets."

"Never touch fallen electric wires."

School Board Members Elected Saturday Will Spend Over Half Year Tax Money

Quad-Cityans will elect eight members to local boards of education Saturday. As was the case Tuesday, every eligible voter has a duty to participate and to vote objectively after a thorough study of the candidates. The decisions made by the school boards affect more than half of each local tax dollar.

Biographical information on the 14 who are seeking the non-salaried posts for the next term is given in a news article today. The Press-Record's election suggestions follow:

GRANITE CITY SCHOOL DISTRICT—three to be elected, including one rural member: Robert N. Spengler, 1961-62 board president, offers experience on a board that will have at least five first-term members; his record has been one of dedicated service to the district and its growth problems; Ralph Boske, unopposed for the rural position, has a long record of public service and is a 25-year resident; Daniel N. Linder, a lifelong resident and successful businessman, is the only one of the candidates with an educational background that includes a university degree.

MADISON SCHOOL DISTRICT—two to be elected. The two incumbent board members, Oel M. Blumenstock and Frank L. Dorrer, due to their service on the board, should be best equipped to continue to cope with the district's major challenge—a low ratio of taxable wealth per pupil.

VENICE SCHOOL DISTRICT—three to be elected. As is the case in the Madison district, the incumbents, President Lester R. Salem, Secretary Roy L. Musick and Member Eugene M. Elgan, offer long records of experience in school matters.

Sonic Booms—Soon Gone But Not Forgotten

Soon to be gone from the Quad-Cities and surrounding area, sonic booms will not be as quickly forgotten. Memories of fallen plaster and awak-

enied children stand out most clearly, but there is also the knowledge that the local populace, through its tolerance, has helped further the nation's military preparedness. Now, residents of other areas will encounter the same experience.

Because of their relation to B-58 bomber training flights, the thunderous crashes have served a useful purpose and, in a left-handed way, have been comforting. At least it has been our own planes and not enemy aircraft breaking the sound barrier with such ease and frequency while hidden far above us in the night sky.

The severity and suddenness of the booms also may have been of value in another way. In bringing a touch of wartime sounds and uncertainty to communities deep within the heart of America, they have reminded all of the ever-present possibility of global conflict, thus encouraging the discipline and dedication that can prevent it from occurring.

Long-Idle Savings Accounts Will Become State Property

We don't recall losing track of any funds in recent decades, but we are looking through our records, just in case. Statistics indicate that some Quad-Cityans will be affected by Illinois' new escheat law on bank accounts which goes into effect May 1, and we don't want to be among them.

Banks currently are reviewing their records and address listings and trying to revive accounts in which the customer has made no deposit or withdrawal or has had no interest entered in his pass-book in the last 15 years. Beginning in May, accounts inactive that long will become state property.

Most dormant accounts are small, but a few are large, like that of an Illinois man who went off to war in 1942 and forgot about his \$9000 deposit, now grown with interest to \$13,000. Happily, he was located, and banks are endeavoring to contact others. For those who have moved since 1947 and believe they may have overlooked an old savings account, it could be well worth their time to find out, and soon.

Pupils' Interest In Space May Be Put To Good Use

"Today's sixth grader may be landing on the moon in 20 years," the National Aeronautics and Space Administration says, and, judging by the space probe timetable for the next few years, there is no reason to doubt it. Fortunately, with a big boost from Col. Glenn's dramatic, orbital flight, intense interest in space science is developing among the younger set.

Teachers are being overrun with space and rocket questions, it was noted at the 1962 national meeting of elementary school principals. While this in itself can create at least temporary problems, it is the type of problem that educators would most like to deal with—eagerness for learning.
